What Is Narcotics Anonymous?

Origins and History

Narcotics Anonymous was founded in 1953 by two individuals—Jack and Lois B. Smith—who were both in recovery from drug addiction. Their experience with Alcoholics Anonymous (AA) sparked the idea that a similar, drug focused fellowship could provide a supportive environment for those battling narcotics dependence. NA grew rapidly, establishing chapters worldwide and adopting the 12 step framework that has become synonymous with modern addiction recovery.

Core Principles and Philosophy

NA's philosophy centers on the belief that addiction is a disease that requires both personal responsibility and community support. The organization promotes:

- Honesty and self reflection
- Spiritual growth (as defined by each individual)
- Service to others in recovery
- A commitment to anonymity and confidentiality

These principles are woven throughout every chapter of the **narcotics anonymous basic text 6th edition**, creating a cohesive guide that addresses the physical, emotional, and spiritual aspects of addiction.
